MARKET OVERVIEW

Pre Open Thoughts: Leap of Faith

Being without an opinion is so painful that most people will leap to a hasty opinion rather than undergo it. Some may call it the B' Day while some may call it D' Day of market sentiment. However, 29 February 2016, remains another Leap day at the end even though it is the most important day of the year in the country's financial calendar. Enough is discussed, written and talked about the announcements, acts of commissions and acts of omissions related to the Union Budget 2016-17.

Coming to the markets Asian stocks were a mixed bag after Group of 20 finance chiefs made only vague commitments to spur growth after talks in Shanghai. The yen rebounded from a three-day drop and New Zealand's dollar weakened.

For India we are looking at a flat to positive start again but early gains may not sustain through the session, As markets might get corrected and nervousness prevailed on the bourses ahead of the Union Budget on account of sustained selling pressure which was witnessed on Friday.

All eyes will be on the Parliament session as with retrospective taxation continuing to rile foreign investors, the Budget today may look to address their concerns with a view to resolving the legacy issues. Chief Economic Advisor Arvind Subramanian has said that the present government is taking "consistent steps" to deal with the legacy tax issues to regain investor confidence.

Also the extras by way of gossip and the grapevine on the proposed announcements may surely put the FM and his budgetary team to a real test, Hopefully, the Centre will also be more active on the policy front and announce a good balanced budget this time to raise growth .Let's hope there may be some surprises in the Union Budget

IMPORTANT MARKET HIGHLIGHTS

Benchmark indices edge lower in a highly volatile session after Budget

Indian stocks edged lower in choppy trading session as increase in Securities Transaction Tax (STT) on equity options and levy of tax on dividend for high networth individuals offset the government sticking to the 3.5% fiscal deficit target for 2016-17 in the Union Budget 2016-17. The barometer index, the S&P BSE Sensex, fell 127.29 points or 0.55% at 23,027.01, as per the provisional closing data. The 50-unit Nifty 50 index lost 42.70 points or 0.61% at 6,987.05, as per the provisional closing data. The Sensex provisionally settled above the psychologically important 23,000 level. The Nifty provisionally settled

The Finance Minister announced raising the rate of Securities Transaction Tax (STT) in case of equity options to 0.05% from 0.017%. The Finance Minister slapped tax at the rate of 10% on gross amount of dividend received by individuals, HUFs and firms receiving dividend in excess of Rs 10 lakh per annum. Companies will continue to pay the Dividend Distribution Tax (DDT) on dividend payment, as per the exiting tax law. The finance minister announced a plan of phasing out corporate tax exemptions. The benefit of accelerated depreciation will be limited to maximum 40% from 1 April 2017. The benefit of deductions for Research would be limited to 150% from 1 April 2017 and 100% from 1 April 2020. The benefit of section 10AA to new SEZ units will be available to those units, which commence activity before 31 March 2020. The weighted deduction under section 35CCD for skill development will continue up to 1 April 2020.

Index in the past 2 weeks has corrected by over 650 points & is clearly under severe pressure & has closed below its long term support of 7050.

Going Forward,

Index clearly being in a down-trend will face resistance at higher levels around 7120-7135 & Till 7135 is not crossed, expect lower levels of 6810-6820 zone. Only on a cross-over above 7135, short-covering up to 7260-7320 would be witnessed.

However since the intermediate trend is down, expect selling pressure to be witnessed on rises. Meaningful rebound (Positional) in the Index will only be witnessed on a cross-over above 7325 zone.

Position ally, If we don't reverse above 7135 & close below 6820 zone which is the 50% retracement of the medium term rally between 4531 (Dec 2011) & 9119 (March 2015), steeper fall up to 6550-6480 zone could be in place. 6550-6480 is the 38.1% retracement of longer term rally between 2252 (Oct 2008) & 9119 (March 2015) as well as support area formed by joining long term trend-line from 2252 (Oct 2008) & 5118 (Aug 2013).
