MARKET OVERVIEW

Pre Open Thoughts: A better day...life goes on

Well coming back to markets after a long weekend Dalal Street will also be back to business. The market is set to open on a positive note with weekend global cues paving the way as Market sentiment seems to be improving.

On Asian front Japanese stocks led a retreat in Asian equities as the yen strengthened following the release of data showing Asia's second-largest economy shrank last quarter. Oil and copper declined, while gold advanced before China releases February trade figures.

Back home the frenzied broad based buying support led to incessant short-covering which helped the Nifty move above the 7400 mark.

On Nifty as written last week where in confidence will be seen above 7350 but on the upside 7650 still remains a major hurdle. At the same time 7350 now remains to be downside support. On the whole, there may be seen that main indices may trade in a tight trading band with a slightly positive bias in the near term.

Fund flows have been an important factor to watch out for and after a long time, FIIs have turned net buyers in the cash and derivatives segments. DIIs continued to support the markets and remained net buyers during the week. The breadth of the market remained robust amidst higher volumes, which is a positive sign on commodity front Crude prices closed at about US\$ 37.29/barrel, up 5%, during last week.

In some stock specific movements banks are likely to remain under the radar after Govt said that they may allot more Bank recapitalization if required.

For the next week, Bank Nifty Range could be 14900 – 15900.

IMPORTANT MARKET HIGHLIGHTS

After swinging between positive and negative zone near the flat line in intraday trade, key benchmark indices provisionally registered small to minuscule gains. The barometer index, the S&P BSE Sensex, rose 97.87 points or 0.4% at 24,704.86, as per the provisional closing data. The 50-unit Nifty 50 index ended near the flat line. It rose 9.75 points or 0.13% at 7,485.35, as per the provisional closing data.

Meanwhile, the Union Budget 2016-17 disappointed the public sector banks by maintaining the allocation of capital funds unchanged at Rs 25000 crore for FY 2017 considering higher non-performing assets (NPAs) and weak earnings. On the flip side, the Budget has announced to operationalize Banks Board Bureau (BBB) in 2016-17, which will spell out a roadmap for consolidation of public sector banks.

Among private sector banks, IndusInd Bank (up 2.39%), ICICI Bank (up 1.51%), HDFC Bank (up 1.1%) and Kotak Mahindra Bank (up 1.06%) edged higher. Axis Bank (down 0.02%) and Yes Bank (down 0.13%) edged lower.

IT stocks edged lower as rupee edged higher against the dollar. HCL Technologies (down 2.44%), Tech Mahindra (down 2.43%), Wipro (down 1.29%), and Persistent Systems (down 0.44%) and TCS (down 0.39%) edged lower. Infosys (up 0.54%) and Oracle Financial Services Software (up 4.49%) rose. A firm rupee adversely affects operating profit margins of IT firms as the sector derives a lion's share of revenue from exports.

In the foreign exchange market, the partially convertible rupee was currently hovering at 67.235, compared with its close of 67.335 during the previous trading session.
