### **MARKET OVERVIEW**

### Pre Open Thoughts: A Wednesday!

Life shrinks or expands in proportion to one's courage. It is difficult to show courage and really settle down as markets are at the life highs and such powerful is the sentiment that lingering problems globally are being overlooked. The only question is whether the current upswing is sustainable? It won't take long for fear to return and some cooling is a given after a strong rally.

For India the main headlines today is that after three months of contraction, factory output grew 2% in February due to strong performance by mining and electricity sectors, while retail inflation moderated further in March. India's IIP grows 2% in February; CPI inflation eases to 4.83% in March

Separately the International Monetary Fund (IMF) retained India's GDP forecast for this fiscal year and the next, confirming its status as the world's fastest-growing major economy, as it pared global expansion estimates citing weakening worldwide recovery amid increasing financial turbulence. Growth will continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes.

But coming to Stock markets in India now it looks like we are at key junction where we need to see fresh news to push the market higher rally will depend on broader participation from mid-caps and small caps with 7650 emerging as new line of defense.

Overall going forward as Investors would not really want to take chances as Indian markets are closed on Thursday & Friday. Volatility is a given in such situations and with indices perched at higher levels on weekly basis indices could swing either way in the near term.

#### **IMPORTANT MARKET HIGHLIGHTS**

Auto and FMCG stocks led gains for key benchmark indices after private weather forecaster Skymet forecast above normal southwest monsoon rainfall during June-September 2016. The barometer index, the S&P BSE Sensex, rose 111.90 points or 0.45% at 25,134.06, as per the provisional closing data. The Nifty 50 index gained 38 points or 0.5% at 7,709.40, as per the provisional closing data. The Nifty hit one-week high when it rose 46 points or 0.59% at the day's high of 7,717.40 in late trade. The index lost 8.05 points or 0.1% at the day's low of 7,663.35 in early trade. The Sensex, too, hit one-week high when it rose 157.86 points or 0.63% at the day's high of 25,180.02 in late trade. The barometer index lost 25.72 points or 0.1% at the day's low of 24,996.44 in early trade.

The Sensex gained for the second day in a row and the Nifty edged higher for the third day in a row.

Shares of state-run coal mining major Coal India (CIL) fell 2.4% after the company announcement that its board of directors has accorded its approval for giving up performance incentive for supply of higher grades of coal in the model fuel supply agreement for power and non-power sector with immediate effect with a view to improve lifting of coal. This decision was taken due to fall in international coal prices, improved supply of coal by the company and sluggishness in coal demand in general and higher grade of coal in particular.

Bharat Heavy Electricals (Bhel) dropped 0.12%. With respect to news report of NTPC's joint venture utility in Bangladesh awarding engineering, procurement and construction contract to Bhel for an estimated value of \$2.4 billion, Bhel clarified during market hours today, 12 April 2016, that the contract for the 1,320 megawatts Maitree Power Project in Bangladesh is yet to be signed. The financial closure is under process.
