MARKET OVERVIEW

Pre Open Thoughts: Truncated week; sluggish day

Now and then it's good to pause in our pursuit of happiness and just be happy. It's been raining gains and good news all around. The news this morning is that India's current account deficit for Q3 dips to 1.3% of GDP. Over all on global front a recovery in crude oil prices and the willingness of central banks to support global growth has calmed markets following a volatile first six weeks of 2016.

There could be sluggishness overall going forward as Investors would not really want to take chances as Indian markets are closed on Thursday & Friday on account of the Holi and Good Friday. The outlook is flat at start and market participants may like to take a cautious approach with only two days of trading left for India this week we could see some profits being booked today.

On the flip side Japan drove gains in Asian equities amid optimism that the volatility that marked trading at the start of the year has abated. The prospect of a U.S. interest -rate hike as soon as April supported the dollar, while bonds in the region declined.

India now it looks like we are at key junction where we need to see fresh news to push the market higher, in turn all eyes will be on government's big bang actions to stimulate growth post budget proposals, some monetary easing will be needed sooner than later.

Forex as usual is likely to remain under the focus as some of Economic data from RBI suggests that the Balance of Payments (BoP) remained in the positive territory in Q3. The reserves increased by \$4.1 bn in the quarter ended December 2015 against an increase of \$13.2 bn in the year -ago period.

IMPORTANT MARKET HIGHLIGHTS

The Sensex and the Nifty, both, hit their highest level in almost 11 weeks as these two key benchmark indices extended gains in late trade. The Sensex jumped 374.71 points or 1.5% at the day's high of 25,327.45 in late trade, its highest level since 6 January 2016. The barometer index rose 35.53 points or 0.14% at the day's low of 24,988.27 in early trade.
